optimization of resource use and output management. An efficient marketing system can also contribute to an increase in the marketable surplus by scaling down the losses arising out of inefficient processing, storage and transportation.

Building Agricultural Market Information Systems: A ...
Agricultural marketing includes the services and functions of different institutions and intermediaries. Agricultural marketing problems vary from commodity to commodity largely due to the seasonality of production, the variations in its handling, storage, processing and the number of intermediaries involved in them.

way to ensure that this critical connection between economics and marketing is formed.

The Agricultural Marketing System Chapter 3 Terms ...
This course is intended to introduce important concepts in agricultural marketing. We will examine links between producers and consumers and factors that may cause changes in those links. Because agricultural markets are often fluid and changes can occur rapidly, we will seek to study current events and examine their effects on agricultural markets.
