Educational Psychology and the Learning Process

I would give this book 2.5 stars out of 5 as it's the core text for our EDUC 200: Foundations of Education class. The class is written to focus on the philosophies of education; however, philosophies are only mentioned on four pages: page 168 (Chart "Philosophies of Education"), page 183 (Table "Theories of Education"), pages 383-387 (Historical Perspectives of Education), and page 407 (Table ...

Psychological Foundations of Education (Complete) Education also means change in the behaviour of an individual. So, education and psychology are as inseparable from one another as two sides of a coin. Without understanding the psychology of a child the teacher cannot educate him in the true sense of the word. Psychology is the most important of the

Psychological Foundations. The psychological foundations also play an essential role in the development of curriculum in education. It answers the question of “how people learn” and encourages “curriculum specialists to ask how psychology can contribute to the design and delivery of curriculum” (Ornstein & Hunkins, 2009, p. 107).
